

# FREE 2011 AFN CONFERENCE iPhone & Android App!

Welcome to the AFN 2011 smart phone app. We're pleased to announce the premier of this wonderful, custom made tool to help you get the most out of this year's AFN Convention.

If you've ever been to Convention, you know that there are always new updates and opportunities popping up. We've prepared this dynamic, updateable, interactive event program guide to keep you "in the know."

Whether you're attending Convention in-person or checking in from around the world, the free AFN 2011 app has something for you.

## Features include:

- **Daily Agenda** At-a-glance overview of each day's activities.
- **Breaking News** Announcements and information posted throughout Convention. Use this dynamic message board to follow meeting and agenda updates, upcoming events listings, and approved postings from Convention delegates and attendees!
- **Push Alerts:** Stay up-to-date as we keep you tuned in to what's happening minute-to-minute. Alerts will appear on your phone for venue changes and special announcements.
- **Arts & Crafts:** We're really excited about this feature! We have a directory of all of this years artisans. We will add photos and descriptions of these talented people and their work as they become available.
- **Celebrity Voicemail:** Now you can win the opportunity to have John Baker record a personal voicemail message on your phone. John has been an encouragement to so many people young and old, sharing his theme of *Dream. Try. Win.* — just seemed natural. Send us your name and e-mail and we'll select the lucky winner.
- **Photo Exhibit** Last year we asked for you to send in your photos of "Village Survival!". Back by popular demand, the work of your friends and neighbors has been included in a new updated gallery on this years app. A new call for entries is now being made for your photos depicting "Strength in Unity". We can hardly wait to see the results!
- **A Word from Father Michael** Father Michael's wisdom and humor have been a source of joy and insight for all of us for many years. Visit each days Word for your daily dose of discernment.

## Year 'round value

Stay in touch with AFN throughout the year for the most current information on our key issues and federal priorities.

- **Surveys and Polling** Our most ambitious feature is live polling via your smart phone. The app will contain infographic charts with important information for Alaskans. You will be presented with a survey to gauge opinions and you can see the results live on your phone!
- **Audio Summaries** APRN reports on AFN 2011 and other key stories.
- **GOTNV** With national elections coming up, getting out the Native vote is more important than ever.
